**YOUR COMPLETE ONE-STOP SERVICE  
CENTRE FOR EVERYTHING MG!**

# ALL THIS BY DEDICATED AND ENTHUSIASTIC MG ROVER TRAINED TECHNICIANS

*Brown & Gammons has been established since 1977 and during that time, with the help of a workforce in excess of 20 skilled personnel with hundreds of years combined experience between them, has built for itself a reputation of excellence and success within the MG world. The same enthusiasm which drove the company's growth, continues today in the vast range of quality services we provide.*

## CAR SALES

If you are looking to sell or buy a nice MG then look no further than the B&G team. Only quality cars grace our two car showrooms. We have over 27 years experience in selling MGs and are currently selling over 150 cars per year. All cars are sold with a B&G service and up-to-date MoT. Quality cars are always wanted for either purchase or commission sale - let us take the hassle out of selling your car.

## ACCESSORY FITTING AND PERFORMANCE UPGRADES

Not only do we sell a vast array of aftermarket accessories and performance upgrades, but we also fit them. Our skilled parts staff can advise you on how each accessory will improve your car and then give you prices for fitting. Some of the more popular items are EBC brakes, lowering kits, performance filters, wooden dash boards, leather seats, wheels and tyres to name but a few but what ever it is our workshop will be able to help.

## SERVICING AND MoTs

Servicing your car is a necessity if you want to achieve the best from your car and at Brown & Gammons you can be assured of a high quality service. We can offer complete servicing and MoT facilities for your MG by our MG Rover trained technicians. During the service we undertake to look at all aspects of your car's safety and performance and if any additional work is needed we report back to you giving an honest evaluation on costings and how urgent any jobs are. We have technicians skilled in all

models of MG from T-type through MGAs, MGB, MGC, V8,

Midget to MGF/TF and MG Rover's Z range. In fact, as a MG Rover Approved Repairer we can service your MG TF, MG ZR, ZS, ZT, ZTT and Rover 25, 45 and 75 without jeopardising your MG Rover warranty. Our prices are highly competitive and our enthusiasm unequalled.

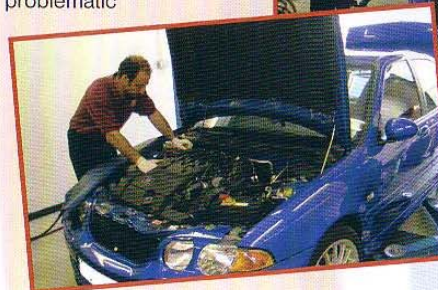

## FULL DIAGNOSTIC ANALYSIS

Using MG Rover's T4 testbook diagnostic equipment our skilled technicians can quickly and accurately pin point any problem areas saving time and money spent on problematic

diagnostics.

We also use the world renowned Crypton Tuning and Analytic equipment which can give accurate reports on the older cars.

## 4 WHEEL ALIGNMENT

If a car's wheels are mis-aligned it causes excessive wear on the tyres, particularly on the edges. This means that tyres have to be replaced more frequently resulting in increased running costs. Another symptom is that the car will pull to the left or right and, under braking, could become seriously wayward. This means increased handling difficulties and lower safety driving conditions.

Our 4-wheel alignment equipment, the most advanced machine on the market, enables our engineers to check within one minute degree of accuracy how straight a car's wheels are. Each wheel is checked individually and if needed, adjusted so that all four wheels are perfectly positioned to enable

the driver to derive maximum driving safety and pleasure.

The process takes just over an hour and most models of MGs can be catered for, the only exception being the older, narrow wheel based cars like the T-Series MGs.

## TYRE FITTING ON SITE

Did you know that at our Baldock premises, we can offer a complete tyre fitting service while you wait.

With the addition of our tyre fitting bay customers can take advantage of some of our exclusive deals on a wide range of tyres and after about 30 minutes they can drive away with tyres that have been fitted and balanced in our award winning workshops by staff with over 25 years in the tyre industry.

## WHEEL BALANCING

Not only can we fit tyres; we can also balance all manner of wheels including all alloys and wire wheels. MGA Twin Cam owners will be happy to know that we can also balance their unique wheels. Wire wheel balancing on both 42mm and 52mm wheels is available for all models of MG and Jaguar, Aston Martin, Triumph and Austin Healey marques while you wait. To make sure customers are not left waiting around too long we do ask customers to phone and book first.

## PAINTWORK, BODYSHOP & ACCIDENT REPAIR

We can undertake all forms of bodywork repair on all models of MG using the latest equipment like MiG and TiG welding. In our spraybake paintshop we use the best paint on the market made by PPG which is a two pack paint and offers over 20,000 colours. Both our painter and panel repairer have over 20 years experience each in their field and perfection is second nature to them.

As a MG Rover Approved Repairer we can

undertake full accident repairs and warranty work to your new

model MG without compromising your

warranty record.

Throughout the years we have put right the damage done by both minor bumps and full scale accidents and returned cars to their previous shining glory. We all know accidents can happen but when they do, don't fret - we are approved by most major insurers so give us a ring and let us fix it.

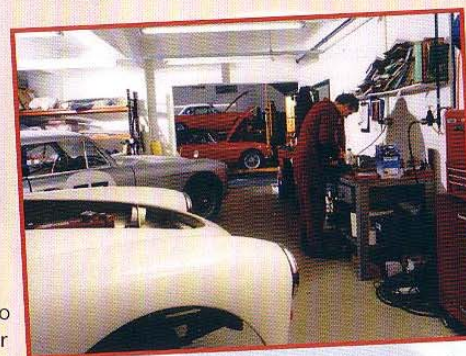

## FULL AND PART RESTORATIONS

Over the years we have restored hundreds of MGs from pre-war Triple Ms, through T-Types, MGAs, MGBs, MGCs, Midgets and V8s. We've undertaken complete restorations or just done the bits of the job that you don't want to. This can include body welding, paintwork, panelwork, mechanical work or interior trim. We've put cars back on the road to original specifications or uprated, modified and even improved either the cars mechanics or aesthetics.

Throughout the work, we keep you abreast of developments (and there are normally quite a few) and we can take digital images of the different stages of your restoration if required. During the work, you are more than welcome to visit our premises to view the car and its progress and to chat about the work involved.

If you want further information, to arrange to book your car in or just to chat about what you have in mind, please ring.

## ENGINE & GEARBOX REBUILDS

For years we have been supplying, rebuilding and fitting engines and gearboxes starting with the XPAG engine for the MG T-Types and then progressing through to engines for MGA, MGB, Midgets and then onto the MGF and MG Rover Z range. We can supply to standard specification or alternatively we have various fast road and race spec engines and boxes to choose from. For more detailed information and up-to-date prices and availability, just give us a call.

## COMPETITION PREPARATION

Brown & Gammons can boast a long and extensive connection with MG and classic motorsport both on the racetrack and in numerous historic rallies. Ron Gammons and his son, Malcolm, have both successfully competed in many historic rallies including Pirelli Classic Marathons, Classic Monte Carlo Challenges, Charringtons Historic rallies, Le Jogs and Leige-Rome-Leige.

They have also contested countless race championships and invitation races, in both MGs and other classic marques like Austin Healey and Lotus. Ron has raced in F1 Grand Prix support races and competed at Goodwood both in the Festival of Speed and the Revival Meeting.

Malcolm has ventured from MGBs to race MGFs both in road going Trophy format and the full on race-spec MGF Cup and was the overall champion of the MGCC MG Trophy in 2002. He can now be seen out racing in the MGCC MG Trophy in an MG ZR where he has already had some success.

The company are also renowned for the quality of build and preparation of customers' vehicles for both racing and rallying, many of whom have enjoyed success of their own. The company has prepared cars for Stirling Moss and are proud to be behind the up keep of numerous ex-works MGs and Austin Healeys. They also regularly prepare MGBs, MGAs, MG T-Types, MGFs, Aston Martin and Lotus 9 & 11 for racing, rallying and fast road use.

So if you're interested in joining the winning team give us a ring.

for more information / booking enquiries - phone 01462 490049

## IN CAR ENTERTAINMENT

Satellite Navigation systems, DVD players, MP3 players, multi disc CD players, handsfree mobile phone kits . . . we can supply and fit the lot. Using only well known brands like Pioneer, Alpine, Kenwood, Clarion JVC and Nokia, Sony Eriksson etc for mobile phones, we can tailor your kit to both your needs and budget.

## CAR STORAGE & TRANSPORT

If required, we can accommodate your car in our dry, secure storage facilities. The premises are properly alarmed and insurance is no problem. We can collect and deliver if required and our discretion is guaranteed.

We can also arrange transportation for your car, be it to our workshops for completion of some work, or we can pick-up from point A and deliver to point B.

## INSURANCE VALUATIONS

Need a valuation for insurance purposes? Then give us a call. We inspect the car at our premises and give a genuine valuation on how much it would take to replace your car, taking into consideration present market values, service records, work detailed etc. This can then be presented to your insurance company along with your documents. We are recognised by most major insurance companies.

## PARTS DEPARTMENT

We also have a comprehensive parts and accessories department stocking over 20,000 lines worth over a million pounds. We offer a first class worldwide mail order service for all models of MG including

T-Type, MGA, MGB & GT, MGC, Midget, V8, RV8, MGF/TF and MG Z range. We are continually reinvesting in tooling and sourcing new suppliers and recently we bought the entire stock of RV8 parts from MG Rover.

Catalogues are available for most of the model ranges or alternatively, you can buy online at [www.ukmgparts.com](http://www.ukmgparts.com)
