

The Great British Sports Car MGB GT & V8

Marketing brochure – Publication 2962/A
Published by Austin Morris Group – British Leyland UK

This brochure covered both the
MGBGT and the new MGBGTV8 model

This document is for reference only and is not offered for sale
V8 Register – MG Car Club

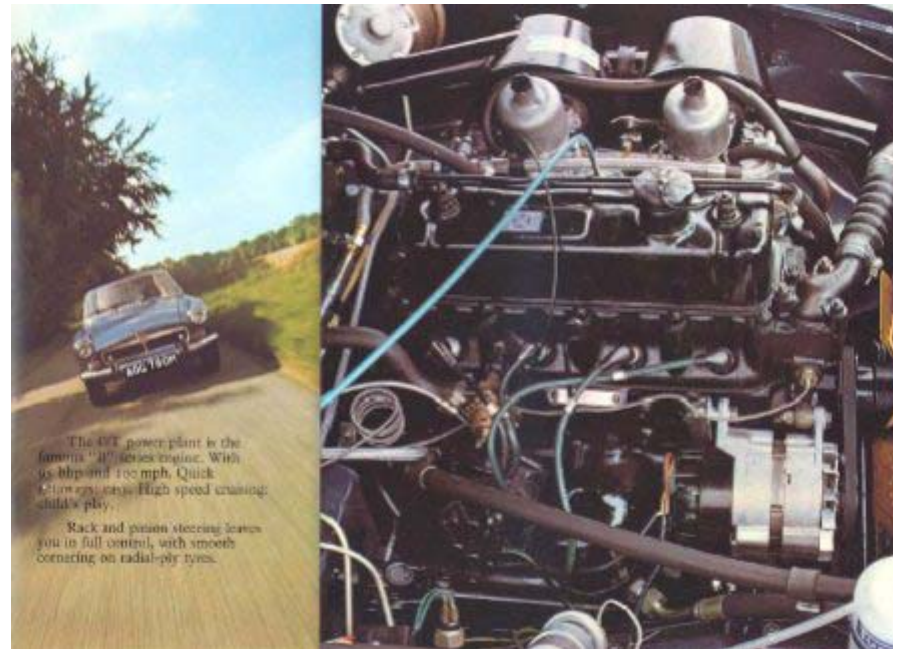

The MGB GT. It's a super-class
 Climax-Turbo that makes driving
 grand—whether you're crossing
 a couple of continents, or coasting
 down to the sea.
 The MGB GT is also available
 with an Extra Pack (U.K. only)
 as follows: Two exterior door
 mirrors, hazard warning lights
 and servo brakes.

You get authentic MG
 performance—sweet car performance—
 an authentic GT style,
 incomparable GT comfort.

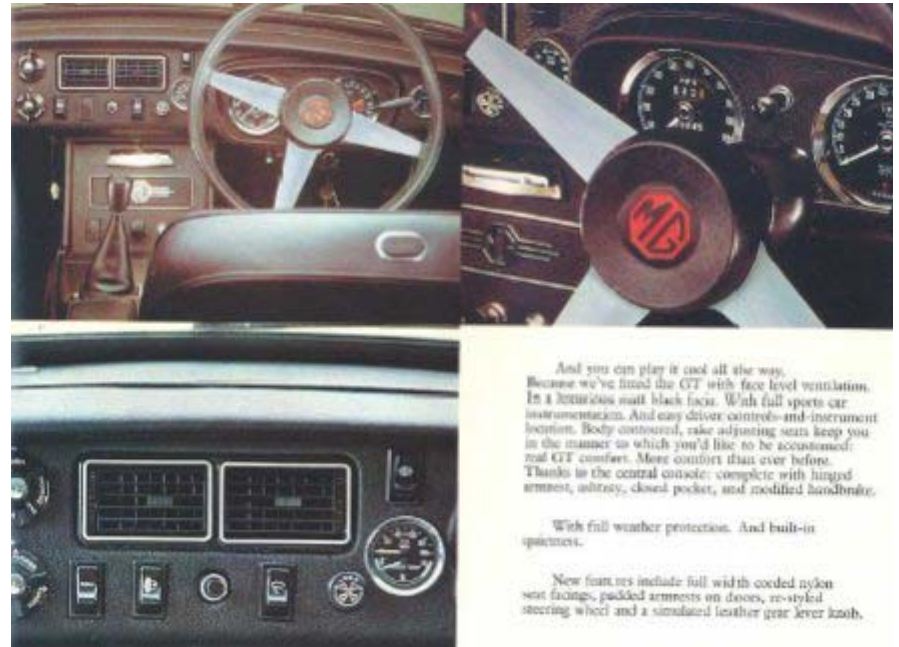

We're not just making promises.
 We're delivering the goods. Roll on,
 and see how good they are.

The GT power plant is the famous "Hemi" engine. With 95 hp and 100 mph. Quick action response. High speed cruising. Child's play.

Rack and pinion steering leaves you in full control, with smooth cornering on radial-ply tires.

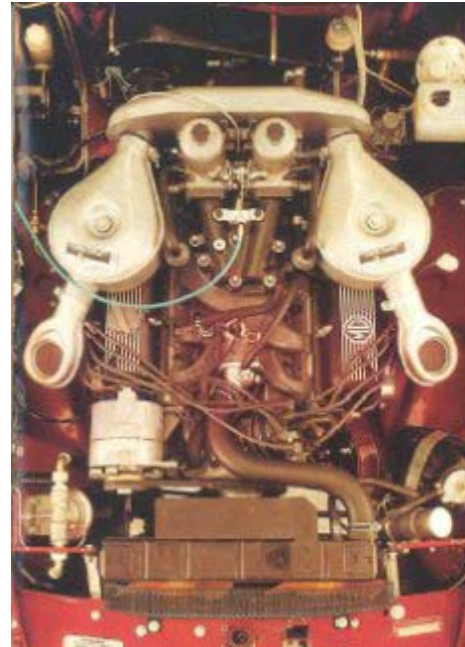

And you can play it cool all the way. Because we've fitted the GT with face level ventilation. In a luxurious matt black face. With full sports car instrumentation. And our driver controls-and-instrument location. Body contoured, rake adjusting seats keep you in the manner in which you'd like to be accustomed: real GT comfort. More comfort than ever before. Thanks to the central console: complete with hinged armrest, ashtray, closed pocket, and modified handbrake.

With full weather protection. And built-in quietness.

New features include full width cooled nylon seat facings, padded armrests on doors, re-styled steering wheel and a simulated leather gear lever knob.

Open up that vast rear window. You're looking at a fully carpeted luggage area, big enough to cope with everything from holiday luggage to the baby's carry cot. If you need any more, just fold down the rear seat.

THE FIRST MG V8!

The MGB GT V8 is powered by a light alloy 3.9 litre V8 engine which develops 137 b.h.p. at 3,800 r.p.m.
 It also has Lapock overheads, tie-rods, alloy wheels, twin electric cooling fans, wind windows, rear exterior mirrors, heated winging lights and hand warmers.
 All as standard equipment.

MGB GT OPTIONAL EQUIPMENT

An optional luxury seat of the optional equipment available for the MGB GT is fitted as standard on the MGB GT V8. The MGB GT is also available with an Extra Pack (U.K. only) comprising of a rear window, heated winging lights & seven speed gearbox.

Overline seats (not on V8) Rear window (on Extra GT only, standard on V8) Painted wire wheel (on V8)
 Chrome Rallye wheels (on V8 and optional V8) Hand warmers (standard on V8) Front window glass (standard on V8)
